WIRTH'S CIRCUS.

Grand Performance Last Night. Matinee Tomorrow.

The ring performance in the Wirth tent last night was all that could be desired by the large audience present. Miss Lyndhurst repeated her great pick-up riding act, and little Muriel Wirth, besides doing an excellent riding act, distinguished herself as a serpentine dancer.

The great Lahl Sing and Alberto did a wonderful horizontal bar act, which called forth continued applause. Little Katie Montgomery delighted the audience by her wonderful riding.

In response to a general request, the "Trip to Donnybrook Fair" will be repeated tonight. For the matinee tomorrow, a special program has been arranged to suit the children, and the admission fee has been fixed for the little ones at ten cents.

Their First Ice.

"One of the funniest sights I ever saw was a South Sea islander with his first chunk of ice," remarked the captain of a trading schooner. "I was lying at anchor at one of the Navigator islands once, when some natives came aboard. It was an awful hot day, and I had just been getting some ice up from below. The natives looked at it curiously, and so I handed one a chunk. The moment it touched his hand he dropped it like a hot shot and looked at his palms to see if they were burned."

"After a deal of jabbering, they all sat around it and watched it melt. They could not understand it at all, and when there was nothing left but a wet spot on the deck they sat around it and discussed the phenomenon."

"I put a piece of ice in my mouth and then gave them some. They shifted it from hand to hand like a hot coal, but the tips of their tongue on it gingerly and finally swallowed the chunk. It was a source of great wonder to them."—S. F. Post.

Lands of Gold.

Those in this country—and they are to be counted by thousands—who have been disposed to sing:

Before this broken bank I stand
And cast a wistful eye
To far Australia's bankrupt land,
Where my possessions lie,

Will probably receive some consolation from facts and figures in the Australasian Review of Reviews, just to hand. In the interval between 1851-93 the gold mines of Australia have added at least £355,000,000 sterling to the world's wealth, and this stream of precious metal maintains its volume. "In 1885 the output of gold in the Colonies was 1,442,000 ounces; in 1894 it was 2,195,000 ounces, an increase at the rate of £3,000,000 sterling per annum. And all Australasian products are on this multiplying scale." Burst-bank creditors, therefore, may hope that "some day," etc.—Westminster Gazette.

Tom Hollinger Removed.

Thomas Hollinger, the well-known blacksmith, has moved into more commodious quarters. The frame structure on Queen street, and familiarly known as the old Bulletin building, just across the street from Mr. Hollinger's former place of business, has been repaired and strengthened throughout, and made particularly adapted to blacksmith purposes. Mr. Hollinger moved into this yesterday. The rear premises have been inclosed with a new fence, giving plenty of yard room, with a number of stalls in a stable shed at the end of the yard.

W. R. Castle has been appointed agent for the Lion Fire Insurance Company, Ltd., of London, England. Patronage solicited.

STUNTED BY COFFEE DRINKING.

Statisticians Hold That It Makes the People of Saxony Small.

Some respectable statisticians, says the London Telegraph, hold that the strong marked tendency of the inhabitants of Saxony to become dwarfed in stature is in a great measure one of the mischievous results of over-indulgence in so-called coffee, which, in the families of the poorer classes, is drunk from early morn to dewy eve, and is a substitute for tea, soup, flesh meat, dessert, etc., like the marvellous manna of the ancient Hebrews. The stuff employed in Saxony, which plays such havoc with the nation, has, of course, little or nothing in common with the beans of Mocha, whose jollying effects upon the unsuspicious goats that chewed them first drew the attention of Mohammedan monks to the wonderful properties of the berry.

Most articles of food are liable to adulteration, especially when they do not happen to be primary necessities of life, merchants and middlemen acting on the principle that it is always profitable to mingle the useful with the agreeable. But few, probably none, have had so many "excellent substitutes" offered in their stead as coffee, in which not a particle of the original article has a place.

A Good Advertiser.

T. W. Hobron, of the Hobron Drug Co., has earned the reputation of being the best builder of advertisements in Honolulu. He has the knack of putting what he wants to say in a few words, and a knowledge of just what type should be used, to give what he wants attention called to, a proper display.

The advertisements of the Hobron Drug Company, prepared by him, are read by subscribers to the ADVERTISER, in which publication they will appear. Besides his ability to prepare good "displays," Mr. Hobron has the happy faculty of buying for his patrons just what they require as to quality and price.

Company 1, C. G., Meeting.

A meeting of Company 1, C. G., was held in the Beretania street school-house last night. About twenty-five members were present. The new regulation caps were distributed. A committee was appointed to look up matters pertaining to proposed range near the Honolulu market and to report on the same at a meeting to be held a fortnight hence.

There will be a special meeting of Hawaiian Lodge No. 21, A. F. & A. M., this evening at 7:30. Work in third degree.
